SALEM, August 1884. Sir:-If I could see anything else in our questions headed "Reply to Facts" in THE REGISTER of August 4, but an attempt to mislead the ignorant or the uninitiated, I would not think it worth replying to. Some former articles written by me, especially my last in the same REGISTER answers some of your questions and being still at large I will help you to understand what you said you can't: I have always bserved that when my articles hit the truth too close, some one of your side wants it checked by contradictions out still always evading the real spirit

r prevarieating the direct issue. I maintain and repeat that no innocent purchaser was ever left unprotected by an American Congress. Look at the Osage ceded controversy. The bonds not sold fell back, but the title of innocent purchasers was respected. You next defy me or anyone else to ind an odd section patented by the Government that they claim. Holy Moses! Why don't you ask to find any section either odd or even that they do not claim in Allen county. If Humboldt or Iola was left for one day without protection I am sure they would claim that too. You say "The grant of 1863 reserves the even sections for homesteads etc., etc." How does this agree with a remark made by the Hon. Hutchings "If Mr. Harris' authority is good, the Leaguers may as well abandon the even sections."

Now we think there must be some even sections somewhere or the Hoff. H. would not advise an abandonment. But besides this if the even sections lts leaders, and an everlasting lts leaders, and an everlasting also lts leaders, and an everlasting list of the Ruler of actions, sure death to the democratic party, including also lts leaders, and an everlasting Government that they claim. How Watch Cases are Made.

This process of manufacture was invented by James Boss, who started in business in 1854, and the methods and tools used in making these watch cases are covered by patents. This is the only watch case made under this process. For many years the introduction of these goods was slow, owing to popular prejudice against "plated" goods, but gradually the public learned that the James Boss' Gold Watch Case was not a cheap gold-seashed or electro-plated article, but was made of genuine gold plates of standard quality and thickness. Conscientious adherence to the determination to make the best watch case ever put on the market, and the adoption of every improvement suggested, has made the Jomes Boar Gold Wetch Close the STANDARD. most subject to wear-the bow, crown, hinges, thumb-catches, etc., are made of sour gold.
